Why is there a need for this platform?

Current Problems

- Finding a reliable cleaner can be time-consuming.
- Customers may not know which cleaners are available nearby.
- Limited control over cleaner selection.
- Basic ratings may not fully represent cleaner reliability.
- Transportation charges may be unclear.
- Customers may have difficulty verifying service completion remotely.

Problem Gap

Existing cleaning services address the availability problem, but there is still opportunity to improve transparency, cleaner comparison, customer choice, and service verification.

Proposed E-Business

Customers ↔ MochiMaid ↔ Cleaners

- Online cleaning-service marketplace
- Connects customers with nearby cleaners
- Customers compare and choose cleaners
- Comparison based on price, distance, availability, ratings, reviews, experience & completed jobs
- Platform supports booking, payment, and service verification

•

Purpose

- Make cleaner booking faster and easier
- Improve customer choice and transparency
- Show transportation cost before booking
- Build trust through reviews and cleaner profiles
- Verify service with before-and-after photos

•

Key Goal:

Convenient, transparent, and trustworthy cleaning-service booking.
